Art Unit: 1653

Claims 1-10 have been canceled. Claims 11 and 12 have been added and are currently under examination.

Priority of the instant inventions is to the filing date of SN 09/107,847, June 30, 1998.

It is noted that Applicants have claimed foreign priority to July 7, 1997 in this instant application and not in '847. This document has not been submitted.

The disclosure is objected to because of the following informalities: The continuity data must be updated.

Appropriate correction is required.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371 (c) of this title before the invention thereof by the applicant for patent.

Claims 11 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Takahashi et al. (USP 6,057,125; filed and having priority to June 30, 1997). Takahashi et al. teach instant SEQ ID NO: 2 as patent SEQ ID NO: 55. Therefore, Claims 11 and 12 are anticipated by Takahashi et al.

No Claims are allowed.
